

TrusteSolutions Welcomes You As A New Trustee

You're a newly appointed trustee. You have a software decision to make. But where do you start?

What to look for:

Is the software you're evaluating easy-to-learn and easy-to-use? Does the software company offer training and support? How responsive are they? Is the software web-based so you can access it – and your documents – anywhere at any time? How fast is the software to keep your productivity high?

What TrusteSolutions offers its customers:

- Cloud-based software that can be accessed from your office, court or anywhere you have an Internet connection
- Intuitive user interface that you'll find familiar, with simple navigation to get you up and running faster
- Customized training now, and later, from experienced trainers who offer valuable guidance gained from a thorough understanding and knowledge of how a trustee's office works
- Responsive, friendly and fast support via phone, email or chat
- A mobile application so you can travel light to 341 meetings with nothing more than a tablet or phone
- A streamlined, automated workflow process with fewer clicks, imposed organization and increased productivity for an efficient trustee office
- Trustee Collaborative and Share Manager provide protected document collection and collaboration via a secure portal instead of via email or fax for enhanced security and peace of mind

We're proud of our new trustee recommendations.

- "I highly recommend TES due to it being easy-to-use, intuitive and offers very good support." –Chris Murray
- "Best software on the market by far. It has the most features. I would absolutely recommend it." –Jim Coutinho
- "I would recommend TrusteSolutions for a new trustee." –Nina Gougis
- "I would absolutely recommend TrusteSolutions. In fact, I already have." –Nicole Pellerin

As a new bankruptcy trustee, you'll need a secure, efficient system for managing email communications, case data, calendars and tracking assets.
